15 September 2009

Dear *Mr. ShivaShankaraiah*,

I am pleased to inform you that we are running out of capacity of your machine, and would now like to order our **2nd machine**.

Kindly work out a **special price** for us since we are **repeating the order** and the best delivery that you can offer us.

Since all sizes are already known to you, please also quote for one complete set of collets for hex bolts & D bolts

Since as a person you are always interested in continuous developments, please also let me know the improvements that we can expect in our 2 nd machine from all aspects like rigidity / increase in capacity / etc etc.

I am sure you will be pleased to get this mail. To be honest with you, even I did not expect that we would run out of capacity this quickly.

Congrats for the good machine supplied to us, and I must say that we are really satisfied in all respects and have enjoyed doing business with you.

Regards

*Shenoy*
