

22nd October 2013

Dear Shiva,

In response to your email of today's date, referring to the TPT-2S-A60 H Polygon Turning machine we received in September, I can confirm that we have had no problems so far and we are extremely happy with our purchase.

The product and service, as far as we are concerned, is First class. We are hopeful for the purchase of another machine in maybe another 24 - 36 months and we look forwards to many years of business between our Two companies.

On a final note, may I add that, I only wished that all of our suppliers were as good & as professional as we have found Trishul Machine Tools to be.

Most sincere regards

Toby Jones
