Dear: Mr. Madhusudhan Srinivas

PGI China is generally satisfied with the overall lever of service we have received from you and your company .We are extremely satisfied with the service you provided when you visited China to commission the machine. As we received the machine only two months and just did a little bit trial production, we don't have enough time to see the performace of the machine. We will let you know the performace we run the machine after a little bit longer time. Anyway, we are happy to buy the machine from your company.

I hope this satisfies your requirement and if you need anything else, please let me know.

Joey Shi
Project Manager
